---

Full Stack Web Developer with a dynamic 2-year background, poised to apply advanced web development skills for driving innovation and achieving success in a challenging professional environment.

**Front-End Tech:** JavaScript, CSS, Tailwind CSS, HTML, React.js, Angular, Next.js.

**Back-End Tech:** Node.js, MongoDB, Prisma, SQL.

**Languages:** Spanish.

## PROJECTS

---

### [Dukes Social Club Website](#) | Jan 2024

- **Description:** Created a comprehensive website for Dukes Social Club as a freelance gig, a social organization in NYC, enabling users to subscribe to a monthly newsletter featuring upcoming events. Developed a visually engaging and user-friendly interface to enhance user experience and encourage newsletter sign-ups. Ensured the website's responsiveness on different devices for widespread accessibility.
- **Technologies:** Wix, HTML, CSS

### [AlexaMusic](#) | Oct 2022

- **Description:** Developed a professional website for a music producer, showcasing their portfolio, services, and achievements. Designed a visually appealing and **user-friendly interface** to engage visitors and highlight the producer's unique style and expertise. **Implemented seamless audio integration** for a captivating listening experience. Ensured the website is **responsive** across various devices for optimal accessibility.
- **Frameworks:** HTML, CSS, JavaScript, React.js

### [Nucamp Bootcamp Website](#) | Aug 2022

- **Description:** This capstone project was designed and developed a dynamic and user-friendly website for summer camp bookings. This website serves as a comprehensive platform where people can easily explore and book spots on a campground. With a seamless user interface and intuitive navigation, the website aims to provide a hassle-free booking experience.
- **Frameworks:** HTML, CSS, JavaScript, React.js, Redux, Vercel

### [Personal Portfolio Website](#) | Aug 2023

- **Description:** Designed and developed a personal portfolio website to showcase my web development projects and skills. Utilized responsive design techniques for optimal viewing across different devices. Implemented smooth animations and transitions for an engaging user experience.
- **Frameworks:** HTML, Tailwind CSS, JavaScript, Next.js

## EXPERIENCE

---

### Nucamp, NYC, Remote | Jul 2023 – Present

#### Web Developer & Evangelist

##### Developer Enablement & Support

- Collaborate with engineering and product teams to gather feedback and insights from the developer community.
- Translate feedback into actionable insights, contributing to product enhancements that align with evolving web developer needs.

##### Training & Support Specialist

- Provide comprehensive support to developers, addressing inquiries, troubleshooting technical issues, and offering guidance on the optimal use of NuCamp's web development tools.

##### Technical Advocacy & Content Creation

- Actively engage in community-building through conferences, meetups, and hackathons to promote NuCamp's web development tools.
- Deliver compelling presentations and workshops to communicate the value proposition of NuCamp's products, driving adoption and loyalty among developers.

## EDUCATION

---

### THE KNOWLEDGE HOUSE, Bronx, NY | Oct 2023 – Present

#### Web Development

- Enrolled in an intensive Web Development Fellowship program, mastering HTML, CSS, Git, and JavaScript. Demonstrated expertise in JavaScript, covering code structure, data types, DOM manipulation, and advanced topics like OOP vs FP. Acquired practical skills in version control (Git), dynamic web development, and modern JavaScript frameworks.

### NUCAMP CODING BOOTCAMP, Remote | Apr 2022 – Oct 2022

#### Full Stack Web and Mobile Development

- Attended a 22-week full-stack web and mobile development bootcamp. Mastered Bootstrap, React, Node.js, JavaScript, React-Native, HTML, CSS, Git, & more. Created functional web & mobile applications using Bootstrap, React, and React Native.
